PRODUCT FEATURES 产品特点

The low at tude exhaust olfumepunfersanewgenerat on of green environmental protecionifumeputer developed enthebaissowdelyabsotig emission standard for cooking fume.And obtained the national environmental protection product certifica fi on, its performance index is in the leading position in China, fundamentally solve the problem of kitchen fume pollution in the catering industry.

This product has a wide range of applications, can be applied to hotels, restaurants, restaurants and schools, institutions, factories and other places of the kitchen fume purification treatment food frying.cooking processing industry: oil splash heat treatment workshop.oil mist lubrication workshop.workpiece welding workshop and olefin oil boiler emissions and other industrial occasions.

PRODUCT FEATURES 产品特点

- ◆ The product is suitable for the treatment of oily water of mineral oil, animal oil, vegetable oil, mixed oil and various emulsified oils with high-efficient oil-water separation effect.
- ◆ Mechanical gravity oil-water separator has compact structure. The interface connection is simple and the floor space is small.
- ◆ Easy to clean and maintain.
- ◆ It can be arranged in the open air, or underground to prevent freezing. It has automatic shut-off device, oil drain device and sampling port.
- ◆ Check the cleanliness of the corrugated board once a year. If it is dirty, just use a high-pressure water to clear it.
